BAZANT, Z. P. Stability of Elastic, Anelastic, and Disintegrating Structures: A Conspectus of Main Results The article attempts to review the main results in the vast field of stability of structures. The classical field of elastic stability is covered succinctly. The coverage emphasizes the modern problems of anelastic structures exhibiting ...

Stability of Elastic, Anelastic, and Disintegrating ...

Stability analysis in solid mechanics began with Euler's solution of buckling of an elastic column (Euler, 1744). Most basic linear elastic problems of structural stability were solved by the end of the

19th century, although further solutions have been appearing as new structural types were being introduced.
